

****ATTENTION ALL PATIENTS****: as of 3/22/2020 the state of Ohio is under a "Stay at Home" mandate effective today through April 6, 2020. This mandate is in place to protect our community and CAAC is taking it very seriously. We are making some clinical changes and we hope you will understand that all changes are for the benefit of our patients, staff, their families and our community. We are all in this together!

During this "Stay at Home" we will no longer be seeing patients in our offices. All patients with upcoming appointments will receive a call from our office notifying them of appointments being changed to telemedicine or being re-scheduled for a later date. Any patient needing to schedule a new appointment will be able to schedule via telemedicine.

Our shot hours have been reduced. Allergy and biologic shots will now be available at each office on specific days from:

9:00-12:00 and 12:45-4:30
(Lunch break 12-12:45)

Anderson- Mondays, Tuesdays, and Thursdays

Mason- Tuesdays, Wednesdays, and Fridays

Hyde Park- Mondays and Wednesdays

Western Hills- Mondays 9-12 (Medicare ok) 12:45-4:30 shots only (No Medicare)

Please continue to check here or Facebook for all our latest updates. Wishing everyone good health! Stay safe!
